Arman Ali

Full Stack .NET Developer | ASP.NET Core • REST APIs • Blazor • SQL Server

📍 Agra, Uttar Pradesh, India

PROFESSIONAL SUMMARY

Full-stack .NET developer focused on building practical, reliable software that solves real problems. Core strength lies in **backend engineering with C# and .NET**—designing APIs, business logic, and systems that are clean, scalable, and maintainable. Over the past few years, worked across the full stack—turning ideas into working products, refining performance, and simplifying complex workflows into usable solutions. Currently sharpening expertise in modern .NET, strengthening system design thinking, and building projects that reflect real-world impact. Passionate about writing code that survives production, teammates, and time.

PROFESSIONAL EXPERIENCE

Pacific Computer Services

Aug 2025 – Present

Full Stack Developer

Raman Tower, Sanjay Place, Agra

- Developing and maintaining full-stack web applications using .NET Core technologies
